Checkpoint Original®

Product: Checkpoint® Yellow 35mm
Product Code: CPY35

Function: The Checkpoint® visually indicates wheel nut movement. It will also melt to highlight any overheating issues with the wheel.

Material: We use high-grade virgin polymer to ensure product quality and reliability as an overheating indicator.

Melt temperature:

125°C/257°F (standard version).

165°C/329°F (HT version).

For higher temperatures please contact us for further information.

Application: Mainly for commercial vehicles such as trucks, agricultural vehicles, dangerous goods transporters, etc. It is also used in the industrial sector, and wherever safety critical fasteners can loosen due to heavy vibrations.

Main benefits: Improves the safety of nut fittings. Enables quick and easy visual checks and monitoring. Reduces maintenance costs by saving time and money.

Sizes: All sizes are measured across the flat (a/f) of the nut (in mm). Available in sizes as shown on the front page.

Some sizes are also available in short and medium arrow versions.

Colour: Other colours are available subject to quantity.

Specifications

A = 7 mm

B = 84 mm

C = 57 mm

SPECIFICATIONS ARE VALID FOR ALL COLOURS IN THIS SIZE
