MT3200UP-PLUS / Digital Wheel Balancer With 2 Plane Data Entry

MT3200UP-P-A / Same as Above With Light Truck Cone Kit

MT3200UP-P-B / Digital Wheel Balancer With 3 Plane Data Entry and Light Truck Cone Kit

MT3200UP-P-C / Same as Above With Collets and Lift

MT3200UP-P-B
Model Shown

DESCRIPTION

- High performance digital wheel balancer with latest generation software solutions.
- MT3200UP-PLUS: automatic input of wheel diameter and distance.
- Automatic wheel positioning to the point where the balancing weight is to be applied with electrical positioning brake (optional accessory).
- Low rotation speed and double spinning button allow the machine to be used without wheel guard even in EEC area.
- A double display control panel enables a quick and intuitive selection of the balancing mode and immediate access to the most common operating functions.
- Ergonomic and spacious tray in highly resilient material for counterweights and work accessories.
- Support base for balancing wheels up to 110 pounds without fastening the machine to the ground.
- Electronic input of wheel diameter and distance with AUTOSELECT function which automatically activates the balancing programs, avoiding keypad selection.
- Program indicating ideal wheel/tire assembly position to reduce overall wheel imbalance.

SPECIFICATIONS

Machine Weight	165 Lbs
Rim Diameter	10" - 28" / 1" - 35"
Rim Width	1.5" - 20"
Maximum Tire Width	23.6"
Maximum Tire Diameter	44"
Maximum Wheel Assembly Weight	165 Lbs
Power Supply	110 V / 1-P / 50/60 Hz
Tire Rotation Speed	90-130 RPM

3 Modes to position the adhesive weights: weight holder clip (optional), 6 o'clock laser indicator (optional), or manually at 12 o'clock.

LED spotlight to light up the work area and make it easier to clean the rim, check the wheel and apply weights. The adhesive weights can be positioned extremely rapidly using the laser pointer at 6 o'clock (optional).

**SURGE PROTECTION RECOMMENDED
FOR ALL WHEEL BALANCERS**
