Level Compound

DL6007

AVAILABLE SIZES (6) 16 Ounce **DL6007** | (4) 1 Gallon **DL6007-1**

Level, Polish, and Perfect Your Paint

Mighty Brightline® Level Compound will level and polish. Easy to use. It removes medium imperfections. Level Compound is a blend of high quality dimensioning abrasives and VOC solvents that will allow enough working time to remove 1500 grit scratches from any painted surface, old or new. When used as directed, it will leave the surface leveled, clean and ready for the next step.

Features:

- + Body shop safe
- + VOC/OTC Compliant
- + Removes medium imperfections
- + Easy application
- + Dust free

Directions

Shake well before use. Work on a clean cool surface. Do not use in direct sunlight.

STEP 1: Use a quarter size amount of Level Compound with a silk & wool pad to level and flatten the scratches on an area 2'x2', at speed of 1600-1800 rpm.

STEP 2: Use another quarter size amount of Level Compound with a yellow heavy cut waffle pad, at a speed of 1200-1400 rpm to polish the same area. Use Final Wax with a red waffle final finish pad at speed of 1000 rpm to bring the gloss back to the surface. You may use any type of surface protector over Final Wax for additional durability and gloss.
