

GAITHER BEAD BAZOOKAS

The new BEAD BAZOOKA® utilizes an upgraded version of the trigger-operated rapid air release (RAR) valve technology found in the original BEAD BAZOOKA® models. The extra power it delivers allows it to be smaller and lighter while still allowing the user to seat even the most stubborn tire beads. Half the size twice the power • Serviceable/Replaceable 2" RAR valve • Utilizes ultra-compact design • Anti-corrosion interior tank coating
